

Version list FS-i6S transmitter software/FS-i6S 软件版本更新记录

Software version 软件版本	2.0.68	Date 日期	04/2020
--------------------------	--------	------------	---------

- ▶ **新增功能：**
 - 新增锁屏功能，且锁屏时间可菜单选择（默认为 5 秒）
 - 新增 Rate/Exp(比率 / 曲线) 支持 Normal/Sport 两组状态数据，且可通过物理开关切换；
 - 新增 Rate/Exp. Switch 菜单，用来分配 Normal/Sport 两种状态的切换开关，默认未分配；
- ▶ **修改功能：**
 - 无

注意事项

- 更新完成后模型被复位（用户配套的模型需要重新调试参数）
- 更新完成后需重新与接收机对码
- 锁屏功能默认为开启状态；

以上步骤完成后，可正常使用。

-
- ▶ **New Features：**
 - New auto lock screen function: the lock screen timeout can be adjusted in the relevant menu (default is 5 seconds)
 - New Rate / Exp support: Normal / Sport modes (controlled by switch)
 - Added Rate / Exp. Switch selection menu for assigning the Normal / Sport modes to a switch (unassigned by default)
 - ▶ **Editing：**
 - None

Precautions

- The model data will be reset after the update is completed (The user will have to set their models up again)
- The receiver and transmitter must be bound again after the update
- By default the lock screen function is active.

After the above steps are completed, the system will function as normal.
