DR10 Drag Race Car RTR, green

#70026, 70026C

ELECTRIC ▪ ON ROAD ▪ 1:10 SCALE ▪ 2 WHEEL DRIVE ▪ RTR

Street Racing – An unsanctioned form of auto racing which occurs on public roads. Racing in the streets is centuries old and started well before the automobile, but auto racing started the moment the second vehicle was created!

Modern street racing's roots go back to Woodward Avenue, Michigan in the 1960s when the three main Detroit-based American car companies were producing high-powered performance cars. A private racing venue was not always available, and therefore the race would be held illegally on public roads.

Now with Sublime Green body! Based on the 9-time R.O.A.R. Short Course National Championship platform, the DR10 Drag Race Car features a water-resistant high-power Reedy brushless speed control and 3300kV brushless motor, a 2.4GHz 2-channel radio system, as well as our ALL NEW DVC (Dynamic Vehicle Control) receiver unit with built-in adjustable digital gyro. Add to that a Reedy metal-gear, digital, high-torque servo and a water-resistant enclosed receiver box.

The **#70026C DR10 RTR LiPo Combo** includes a #27201 Reedy Compact Balance Charger and #751 Reedy 7.4V 2S LiPo Battery with T-plug.

Check out the cool video
of the #70025 DR10 RTR!

HIGHLIGHTS

DR10

Factory-finished two-piece Reakt drag race body in Sublime Green with rear spoiler

Water-resistant high-power Reedy brushless speed control with T-plug connector and LiPo low-voltage cutoff

Aluminum 12mm big bore coil-over shock absorbers

Three-position wheelie bar with optional large wheels included

Rugged steel turnbuckles for adjustable camber and front toe-in

Water-resistant enclosed receiver box

Rear CVA driveshafts for more reliability

Lightweight drag race-inspired wheels wrapped with high-grip rear drag slick tires, 12mm hex

Due to ongoing R&D, photos may not match final kit. #70026 vehicle shown on these pages equipped with item NOT included in kit: Reedy battery.

MORE FEATURES

- Based on the 9-time R.O.A.R. National Champion short-course race truck platform
- 2.4GHz 2-channel radio with new DVC (Dynamic Vehicle Control) receiver featuring built-in adjustable gyro
- Three-position wheelie bar with optional large wheels
- High-torque, metal-gear Reedy servo with spring style servo saver
- Powerful Reedy 3300kV brushless motor
- Lightweight front drag tires
- Durable and lightweight aluminum top shaft
- Low center-of-gravity molded composite chassis with hook-and-loop battery straps that accommodate both NiMH and 2/3S LiPo battery packs
- Metric hardware throughout
- 18 precision, rubber-sealed ball bearings
- Durable front and rear wide body mounts
- 2.6:1 ratio gearbox with heavy-duty sealed gear differential and externally adjustable slipper clutch
- Adjustable suspension geometry
- Vertical ball ends for roll center adjustments, front and rear
- Many Factory Team options already available!

SPECIFICATIONS

Scale	1:10
Power	Electric
Length	609.6mm (24")
Width	272mm (10.70")
Weight	1850g (4.08 lbs)
Wheelbase	322mm (12.68")
Transmission Ratio	2.6:1

ITEMS NEEDED TO COMPLETE

- #70026 and 70026C: Four (4) AA batteries (#302 Reedy AA Alkaline) used in the transmitter
- #70026: NiMH or LiPo battery with High Current T-Plug (#751 Reedy WolfPack 2S LiPo or #755 Reedy WolfPack 3S LiPo)
- #70026: Charger for battery used (#27201 Reedy balance Charger -- for LiPo, LiFe)

Charger and LiPo battery Included in #70026C:
