RB10 RTR, blue
RB10 RTR, red

#90031, 90031C
#90032, 90032C

ELECTRIC ■ OFF ROAD ■ 1:10 SCALE ■ 2 WHEEL DRIVE ■ RTR

Team Associated performance in an RTR package!

Since the introduction of the RC10 in 1984, the Team Associated RC10 buggy platform has won 13 of the 18 I.F.M.A.R. World Championships contested since the class began. You now have the chance to drive a buggy derived from this race-winning heritage with the beginner-friendly, yet capable and powerful RB10.

The RB10 Electric Off-road Buggy was engineered using Team Associated's vast knowledge and success in the 1:10 scale 2WD racing category. Featuring a water-resistant, high-power Reedy brushless speed control, 3300kV brushless motor, a 2.4GHz 2-channel radio system, as well as our DVC (Dynamic Vehicle Control) receiver unit with built-in adjustable digital gyro, a Reedy metal-gear, digital high-torque servo, and a water-resistant enclosed receiver box. All of this packaged together in an outstanding factory-finished off-road buggy body with wing. And to keep you sticking to the terrain, the RB10 comes with aggressive off-road treaded tires and lightweight 12mm wheels.

The RB10 will perform on most surfaces you throw it at, from asphalt to dirt as well as any prepared track surfaces. This buggy is as great for bashing as it is for trying your skills out on the track.

The #90031C and #90032C **LiPo Combo versions** include a #27201 Reedy Compact Balance Charger and #751 Reedy 7.4V 2S LiPo Battery with T-plug.

HIGHLIGHTS

RB10

2.4GHz 2-channel radio system

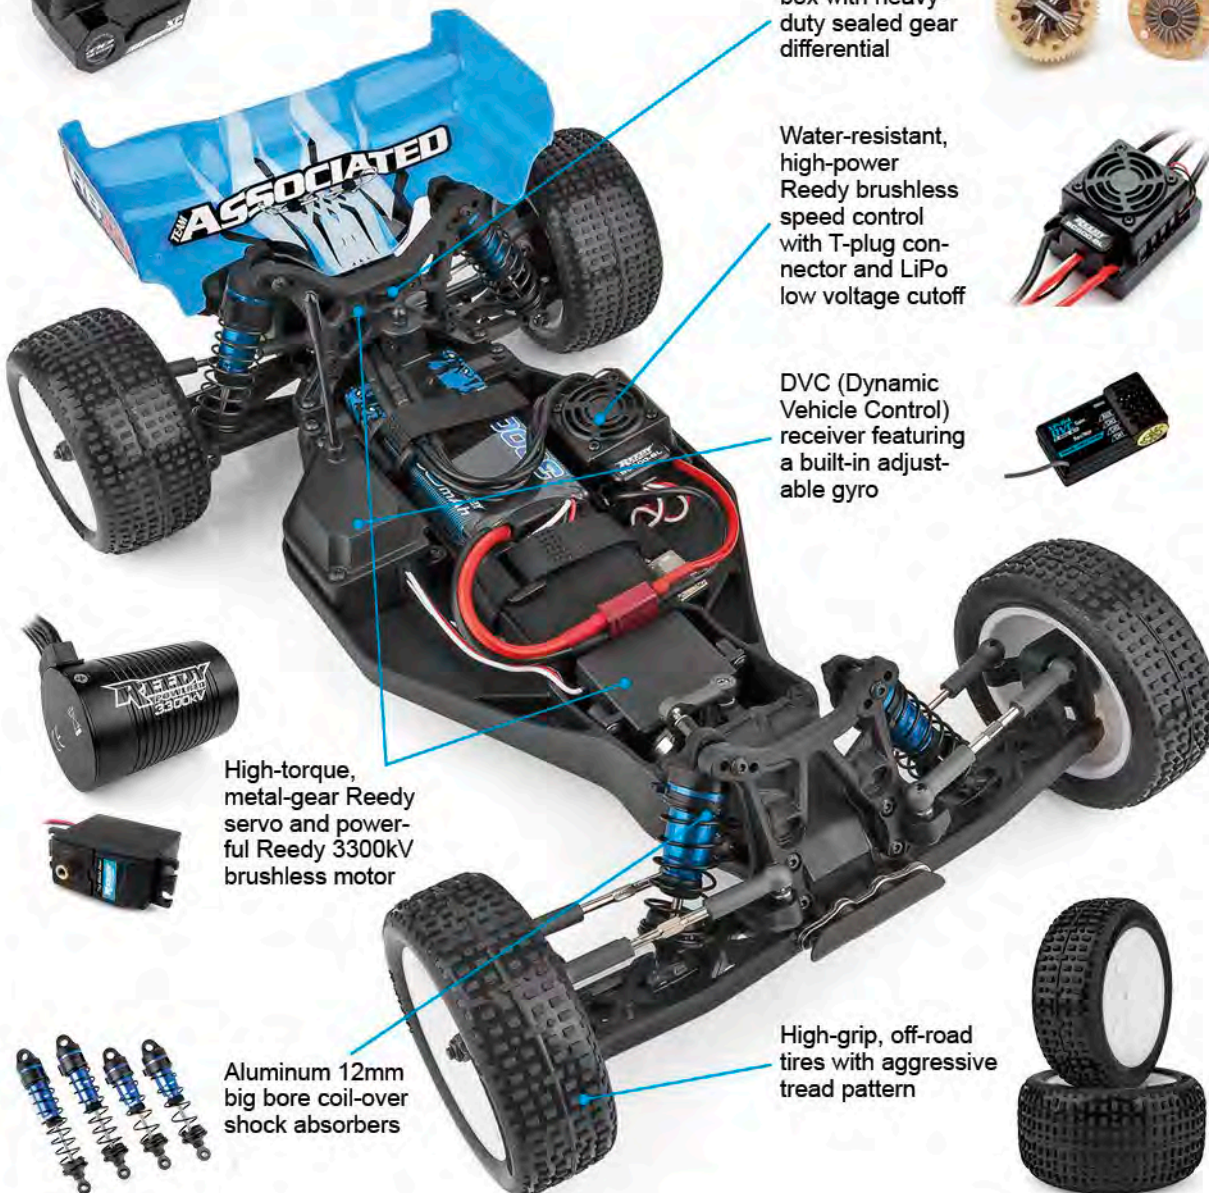

2.6:1 ratio gear-box with heavy-duty sealed gear differential

Water-resistant, high-power Reedy brushless speed control with T-plug connector and LiPo low voltage cutoff

DVC (Dynamic Vehicle Control) receiver featuring a built-in adjustable gyro

High-torque, metal-gear Reedy servo and powerful Reedy 3300kV brushless motor

Aluminum 12mm big bore coil-over shock absorbers

High-grip, off-road tires with aggressive tread pattern

Due to ongoing R&D, photos may not match final vehicle.
Vehicle shown on these pages equipped with items NOT included in #90031, #90032: Reedy battery.

MORE FEATURES

- 2.4GHz 2-channel radio with a DVC (Dynamic Vehicle Control) receiver featuring a built-in adjustable gyro
- High-torque, metal-gear Reedy servo with spring-style servo saver
- Powerful Reedy 3300kV brushless motor
- Water-resistant, high-power Reedy brushless speed control with T-plug connector and LiPo low voltage cutoff
- Water-resistant, enclosed receiver box
- Factory-finished off-road buggy body and wing, with two color schemes to choose from (blue and red)
- Off-road buggy race car-inspired dish wheels
- High-grip, off-road tires with aggressive tread pattern
- Aluminum 12mm big bore coil-over shock absorbers
- Durable and lightweight aluminum top shaft
- Low center-of-gravity molded composite chassis with hook-and-loop battery straps that accommodate both NiMH and 2S and 3S LiPo battery packs
- Rear CVA driveshafts for more durability
- 2.6:1 ratio gearbox with heavy-duty sealed gear differential and extremely adjustable slipper clutch
- Rugged steel turnbuckles for adjustable camber and front toe-in
- Adjustable suspension geometry
- Vertical ball ends for roll center adjustments, front and rear
- Metric hardware throughout
- 22 precision rubber-sealed ball bearings
- Many Factory Team options already available!

SPECIFICATIONS

Scale	1:10
Power	Electric
Length	400mm (15.75")
Width	248mm (10.94")
Weight	1405g (3.1 lb)
Drive	2WD
Transmission Ratio	2.6:1

ITEMS NEEDED TO COMPLETE

- **#90031, 90032:** 6-cell NiMH or 2-3S LiPo battery with High Current T-Plug (#751 Reedy WolfPack LiPo)
- **#90031, 90032:** Charger for battery used (#27201 Reedy balance Charger)
- **#90031, 90031C, 90032, 90032C:** Four (4) AA batteries (#302 Reedy AA Alkaline)

IDEAL CUSTOMER

For person who prefers electric buggies over trucks.

Ideal for backyard or street use, but can be driven at a track, too.
