## NEW! **FACTORY Team** RC10B6 Brass Arm Mount D

Expand the range of rear tuning options for your RC10B6 and RC10B6D with Team Associated's Factory Team Brass Arm Mount D. When combined with the optional #92014 Arm Mount Inserts, the Brass Arm Mount D allows for more roll center and pin width adjustments than the stock mount. An additional 12 grams of weight helps stabilize the buggy in low grip conditions.

### Features

- Direct replacement for the stock arm mount D in #91692 when using the optional #92014 Arm Mount Inserts
- Adds 12g of weight to help stabilize the car in low grip conditions
- Allows for more roll center and pin width adjustments than stock mount
