

For Immediate Release: February 8, 2023

## New Factory Team Steering Block Arms for the RC10B74.2

(Pictured: RC10B74 FT Steering Block Arms, #92375 left, #92376 right.)

Fine tune the steering feel of your RC10B74.2 or B74.2D 4WD buggy with these two new steering block arm options from Factory Team. The #92376 steering arms will have the smoothest and least aggressive feel while #92375 will be a good middle ground between the #92376 above and the kit steering arms #92272. Both options come in a set of two and are well marked with a screen-printed text.

Fits the RC10B74.2 and B74.2D.
