

For Immediate Release: August 9, 2021

New! 12mm Complete Shock Kits for the DR10, SR10, and RB10

#72031 12x23mm Shock Kit V2, front

#71032 12x27.5mm Shock Kit V2, rear

Use these complete shock kits to upgrade your RTR. Featuring hard anodized threaded bodies, machined Delrin® pistons, TiN-coated shafts, and low-friction X-Rings, these shock kits will transform the performance and look of your DR10, SR10, RB10, or any other compatible vehicle. Team Associated's proven race shock construction ensures a leak-free, silky smooth operating shock, time after time. These 12mm complete shock kits can replace your stock RTR shocks. Kits contain parts for two shocks. Springs are not included.

Fits: DR10, SR10, RB10, and any other series of vehicle using 12x23mm and 12x27.5mm shocks.

#72032 (27.5mm) shocks for both front and rear on DR10

#72031 (23mm) shocks for the front of the SR10 and RB10

#72032 27.5mm shocks for the rear of the SR10 and RB10
