**MODEL
44056-3**

Previous experience with radio controlled models is mandatory. This model is capable of very high speeds and requires an even higher level of skilled driving control. Model requires detailed setup and/or maintenance procedures with required support equipment.

WHAT'S IN THE BOX:

Fully Assembled Nitro Slash, Ready-To-Drive[®] with TRX 3.3 Racing Engine, TQi[™] 2.4GHz radio system, and EZ-Start Electric Starting.

Over \$50 of Premium Running Accessories Included!

Nitro Slash sets the benchmark for value by including all the quality Traxxas running accessories you need such as a rechargeable EZ-Start battery, 2amp DC charger, premium fuel dispensing bottle, extra glow plug, a high-quality specialty tool set, and an owner's manual. Complete, easy, and fun. It's what you expect from the company that created the world's first Ready-To-Runs over 27 years ago.

TQi 2.4GHz INTELLIGENT RADIO SYSTEM

This model is equipped with the TQi,[™] the world's most advanced Ready-To-Race[®] radio system. It is engineered to be precise, comfortable, powerful, and reliable. Long-range, high-output, 2.4GHz signal combines with proven Traxxas reliability for rock-solid performance.

Features:

- Automatically recalls model memory and drive profiles for up to 30 models (patent pending)
- 5-Channel Receiver with 3 Telemetry ports
- Two-button programming interface
- Steering/throttle Sensitivity
- Steering/braking Percentage
- Servo reversing
- Endpoint adjustment
- Built in failsafe
- Internal antenna
- Direct sequence spread spectrum technology (DSSS)
- Uses only 4 AA batteries

The TQi transmitter is Traxxas Link Ready. Connect wirelessly to the Traxxas Link Application with the Traxxas Link wireless module. (Part #6511, sold separately)

WHAT YOU'LL NEED TO RUN YOUR NITRO SLASH:

Sold separately at your hobby dealer.

Traxxas Top Fuel[®]
Power Plus[™]
Fuel Filler Bottle Included!

8 AA Alkaline
Batteries

IMPORTANT! THIS PRODUCT IS NOT DESIGNED FOR CHILDREN OR MINORS YOUNGER THAN 16 YEARS OLD. RESPONSIBLE ADULT SUPERVISION IS REQUIRED DURING OPERATION AND MAINTENANCE.

Nitro Slash is a high-performance model which is NOT intended for use on public roads or in congested areas where its operation may conflict with or disrupt pedestrian or vehicular traffic. Read all enclosed information before operating. Fully illustrated, step-by-step instructions describe adjustment, operation, and required

maintenance procedures. Nitro Slash should not be operated in a crowd, indoors, or without adequate space. The vehicle is fully assembled, ready to run, and requires the following items for operation: 8 AA alkaline batteries and model car fuel. These are available from your hobby dealer. In an effort to continually upgrade our products, Traxxas reserves the right to make improvements and modifications to this model, which may not be reflected in the photographs and specifications printed on this box. Battery and charger style subject to change and may vary from photos.

NITRO SLASH

Nitro-Powered 2WD
Short Course Race Truck

The award-winning power of the TRX® 3.3 Racing Engine and the unbeatable performance, durability, and fun of the Traxxas Slash come together for nitro-burning, dirt-roosting, high-speed short-course excitement! The all-new Nitro Slash utilizes the best of Traxxas innovation and engineering to deliver extreme performance capability, all-day reliability, and easy-to-use convenience. The TRX 3.3 Racing Engine is the heart of the Nitro Slash. Designed from the start to match competition-grade horsepower with simple operation, the TRX 3.3 features EZ-Start® electric starting to bring Nitro Slash roaring to life at the touch of a button. The included TQi™ 2.4GHz radio transmitter puts you in command with precision control. Squeeze the trigger to full throttle, and Nitro Slash speeds to over 50mph with the sound and fury that only nitro power can deliver. Simply put, Nitro Slash is the most powerful Ready-To-Race® 2WD nitro short-course truck ever conceived. **And it's only from Traxxas, The Fastest Name In Radio Control.®**

EXTREME POWER

The award-winning TRX® 3.3 Racing Engine is famous for its broad, linear output that makes Extreme Horsepower available practically anywhere in the rpm range. Hammer the throttle at any speed and Nitro Slash completely shreds the ground underneath. Brutal bottom-end torque punches hard out of the turns, and then screams to top speeds soaring past 50mph! The extra-large dual-stage Traxxas air filter allows increased air flow to the TRX 3.3 Racing Engine, breathing in even more horsepower and torque.

EZ-Start® Electric Starting
with Battery and
2amp DC Fast Charger

The Traxxas EZ-Start lights your glow plug and starts your engine quickly and smoothly at the push of a button. Traxxas' exclusive Smart Start® technology monitors critical starting functions, automatically sensing and diagnosing potential problems for trouble free engine starting every time!

TRX 3.3 RACING ENGINE

Magnum 281™
Transmission

The Nitro Magnum 281™ single speed transmission is built Nitro Tough™ with 32 pitch gears, metal top gear, and smooth-running, long-lasting precision ball bearings. This proven, track-tested, three-gear design is built for performance driving applications.

Planetary Gear
Differential

The Traxxas planetary gear differential uses hardened steel internal gears for maximum strength during rigorous off-road maneuvers. This type of differential requires virtually no maintenance and its efficient design puts maximum tire-shredding power to the wheels.

Oil-Filled Ultra-Shocks™

Nitro Slash's super-smooth oil-filled shocks dampen the suspension and maintain control during severe off-road pounding sessions. They are fully tuneable with a wide range of oils, springs, and pistons. Features include pressure bladders for air/oil separation and spring clips to change the ride height and spring pre-load.

SCT
TIRES

Nitro Slash's proven SCT tires are mounted on realistic 5-spoke wheels with beadlock-style detailing color-matched to the body. High-traction S1-compound rear tires guarantee maximum grip, and performance-tuned tire inserts keep Nitro Slash firmly planted through the most extreme power-sliding turns and on the most demanding off-road terrain.

TRAXXAS
The Fastest Name In Radio Control®

TSM
TRAXXAS STABILITY MANAGEMENT

- Experience all the speed and acceleration your Traxxas model was engineered to deliver!
- Prevents fishtailing and spinouts on slippery surfaces, even with full-throttle acceleration
- Faster cornering with more control
- Adjusts from 0% to 100% from your transmitter
