## NEW TQi 2.4GHz INTELLIGENT RADIO SYSTEM

This model is equipped with the TQi,<sup>™</sup> the world's most advanced Ready-To-Race<sup>®</sup> radio system. It is engineered to be precise, comfortable, powerful, and reliable. Long-range, high-output, 2.4GHz signal combines with proven Traxxas reliability for rock-solid performance.

### Features:

- Automatically recalls model memory and drive profiles for up to 30 models (patent pending)
- 5-Channel Receiver with 3 Telemetry ports
- Two-button programming interface
- Steering/throttle Sensitivity
- Steering/braking Percentage
- Servo reversing
- Endpoint adjustment
- Built in failsafe
- Internal antenna
- Direct sequence spread spectrum technology (DSSS)
- Uses only 4 AA batteries

The TQi transmitter is Traxxas Link Ready. Connect wirelessly to the Traxxas Link Application with the Traxxas Link wireless module. (Part #6511, sold separately)

**MODEL**  
59076-1

Previous experience with radio controlled models is mandatory. This model is capable of very high speeds and requires an even higher level of skilled driving control. Model requires detailed setup, and/or maintenance procedures with required support equipment.

## WHAT'S IN THE BOX:

Fully Assembled Slayer Pro 4X4, Ready-To-Drive<sup>®</sup> with TRX 3.3 Racing Engine, TQi<sup>™</sup> 2.4GHz radio system, and EZ-Start Electric Starting.

### Over \$50 of Premium Running Accessories Included!

Slayer Pro 4X4 sets the benchmark for value by including all the quality Traxxas running accessories you need such as a rechargeable EZ-Start battery, 2amp DC fast charger, premium fuel dispensing bottle, extra glow plug, extra air filter, a high-quality specialty tool set, and an owner's manual. Complete, easy, and fun. It's what you expect from the company that created the world's first Ready-To-Runs over 27 years ago.

**NEW**  
2amp DC Peak Detecting  
Fast Charger

## WHAT YOU'LL NEED TO RUN YOUR SLAYER PRO 4X4:

Sold separately at your hobby dealer.

Traxxas Top Fuel<sup>®</sup>  
Power Plus<sup>™</sup>  
Fuel Filler Bottle Included!

8 AA Alkaline  
Batteries

**IMPORTANT! THIS PRODUCT IS NOT DESIGNED FOR CHILDREN OR MINORS YOUNGER THAN 16 YEARS OLD. RESPONSIBLE ADULT SUPERVISION IS REQUIRED DURING OPERATION AND MAINTENANCE.**

Slayer Pro 4X4 is a high-performance model which is NOT intended for use on public roads or in congested areas where its operation may conflict with or disrupt pedestrian or vehicular traffic. Read all enclosed information before operating. Fully illustrated, step-by-step instructions describe adjustment, operation, and required maintenance procedures. Slayer Pro 4X4 should not be operated in a crowd, indoors or without adequate space.

The vehicle is fully assembled, ready to run, and requires the following items for operation: 8 AA alkaline batteries and model car fuel. These are available from your hobby dealer. In an effort to continually upgrade our products, Traxxas reserves the right to make improvements and modifications to this model, which may not be reflected in the photographs and specifications printed on this box. Battery and charger style subject to change and may vary from photos.

## MARK JENKINS EDITION

Mark Jenkins launched his motorsports career by winning the first race he entered at the Texas Road Race of Champions in a Spec Miata. After qualifying for the first annual SCCA Run-Offs in his rookie year, Mark decided to compete amongst the professionals in SCCA Pro Racing's Mazda MX-5 Cup series. Before he began racing Mazdas, Mark enjoyed motorsports only as an enthusiastic spectator, making his rapid rise as a sportscar and off-road racer all the more compelling. The close competition and relatively low horsepower of the open-top Mazdas proved to be excellent training for Mark, as racing success could only be achieved by choosing the fastest lines, conserving tires, maximizing momentum and minimizing mistakes. Mark's aggressive performance on the MX-5 Cup circuit challenged veteran racers at the top of the field.

In 2008, Mark and Mike tackled an extreme motorsports venture: short-course off-road racing. With brother Mike in a Pro 4X4 truck and Mark competing in a Pro 2WD, the Jenkins brothers plunged into short-course racing, literally full throttle. In sixteen races, Mark finished in the top ten five times, even making the top five. While the focus is on short-course competition, Mark will still be splitting his race time between off-road racing and the SCCA Pro Racing Playboy Mazda MX-5 Cup. In the Playboy series season opener, Mark reached a new milestone in his pro racing career by leading the most laps of the event and posting the fastest individual lap time on the way to a second-place finish. Mark returned to the podium for the final race of the season with a third-place finish, and placed fourth overall in series points. In short-course off-road racing, Mark completed the 2009 TORC Pro-2WD season with six top-10 finishes and placed ninth in series points.

# SLAYER 50+<sup>mph</sup> EXTREME POWER PRO 4X4

Nitro-Powered Short Course Race Truck

4WD Short Course Racing brings together the most horsepower and the most suspension travel for incredible side-by-side, fender-banging racing action. Engines scream at the redline as dirt and rocks roost from all four tires. Only the fastest, most powerful trucks dare to compete! The Traxxas Slayer Pro 4X4 brings the sound, smell, and excitement of Pro 4X4 short-course racing right into your own backyard. Extreme TRX® 3.3 power punches hard and assaults the ground as all four tires claw for traction. The amazing Revo-Spec linkage-based suspension delivers seemingly bottomless suspension travel that simulates the handling and jumping ability of the full-size Pro 4X4 trucks. The new long wheelbase chassis and wide-track stance deliver superior stability in rough conditions. Slayer Pro 4X4 brings together scale looks and 50+mph performance for all-day fun, excitement, and competition.

Scale Tube-Style Bumpers

Silicone Exhaust Deflector

Resonator Tuned Pipe

Extra Fuel Tubing

Compact Receiver and Battery Box

Semi-Metallic Brake Pads

High-Torque Waterproof Digital Steering Servo

The Fastest Name In Radio Control

## Extended Chassis and Wide-Track Suspension

The Slayer Pro 4X4 uses the Revo 3.3 extended chassis and new suspension arms for a 30mm increase in wheelbase and a 26mm increase in track width.

## TRX 3.3 RACING ENGINE

The award-winning TRX 3.3 Racing Engine is famous for its broad, linear output that makes Extreme Horsepower available practically anywhere in the rpm range. Hammer the throttle at any speed and Slayer Pro 4X4 completely shreds the ground underneath. Brutal bottom-end torque punches hard out of the turns and then screams to top speeds soaring past 50mph! The extra-large dual-stage Traxxas air filter allows increased air flow to the TRX 3.3 Racing Engine, breathing in even more horsepower and torque.

### Wide-Track Suspension Arms

In addition to a longer wheelbase, Slayer Pro 4X4 is also a full 26mm wider thanks to its new wide-track suspension arms. The wider arms give slayer a larger footprint for greater traction, more cornering bite, and aggressive handling.

### High-Torque Waterproof Steering and Throttle Servos

A race truck needs powerful servos for responsive performance, and Traxxas delivers with high-torque waterproof units. The 2056 throttle servo provides 80 oz-in of muscle, and the digital 2075 steering servo swings the tires with 125 oz-in of precision power. That's three times the power of typical "standard" servos.

### Hard-Anodized, PTFE-Coated GTR Shocks

Ultra-long lasting hard-anodized, PTFE-coated aluminum GTR shocks represent the pinnacle of off-road performance, offering silky smooth damping and a serious factory-works look. Thanks to the extra tough hard-anodized finish, shock performance stays true and consistent for less maintenance and better handling, run after run.

### EZ-Start Electric Starting with Battery and 2amp DC Fast Charger

The Traxxas EZ-Start lights your glow plug and starts your engine quickly and smoothly at the push of a button. Traxxas' exclusive Smart Start® technology monitors critical starting functions, automatically sensing and diagnosing potential problems for trouble free engine starting every time!

### Resonator Tuned Pipe

The dual chamber Resonator™ aluminum pipe delivers the most linear power band from the TRX® 3.3 Racing Engine. It's dyno-tuned for torque down low and big horsepower on the top end. The extra-fine mirror-polish finish looks great and stays clean longer.

### Powerful Semi-Metallic Brake Pads

Traxxas' unique semi-metallic brake pads allow class-leading 4-wheel braking performance that's always smooth and consistent.

### Torque-Control Slipper Clutch

Fan-cooled alloy plates with semi-metallic friction pads deliver unequalled precision, consistency, and power handling.
